- Save money
- Positive community image
- Increase benefit options up to \$100 per month per employee as a tax-free/pre-tax benefit

Workers that vanpool...

- Save money
- Reduce stress
- Improve the environment

## Please help us Care for the Air in Williamson County

### Care for your car.

Regular maintenance and tune-ups, changing the oil and checking tire inflation can improve gas mileage, reduce traffic congestion due to preventable breakdowns and it could reduce your car's emissions by more than half.

**Trip chain.** It's easy! It's when you combine errands into one trip. When you first start a car after it has been sitting for more than an hour, it pollutes up to five times more than when the engine's warm.

### Share a ride.

Carpool, vanpool, or ride the Franklin Trolley FREE on ozone alert days . . . you'll reduce traffic congestion, pollution and save money.

### Don't top off the tank.

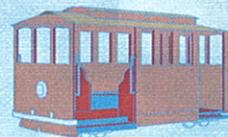

It releases gas fumes into the air and cancels the benefits of the pump's anti-pollution devices. So stopping short of a full tank is safer and reduces pollution.

**Ride your bike.** It's a great way to travel and it can help you and the air get into condition. Vehicles on the road create more than 25% of all air pollution nationwide.

### Telecommute.

Work at home sometimes. You'll save time and money and reduce emissions and traffic congestion.

### Get fuel when it's cool.

Refueling during cooler periods of the day or in the evening can prevent gas fumes from heating up and creating ground-level ozone.

**Take things in stride.** Walk or in-line skate instead of driving. They're easy ways to get exercise and they're easy on the air.

*It all adds up to cleaner air*

The TMA Group, a non-profit organization partnering with the City of Franklin, Williamson County, and the private sector to reduce traffic congestion and improve air quality.
